Bob,

As the clock ticks and access issues are not resolved to allow the proposed geophysical and groundwater investigation to move forward at 80 Pickett District Road, New Milford, CT, it looks like we won't have the data to make a determination that Migration of Contaminated Groundwater is Under Control by our September 30, 2007 target date.

I understand that there have been some corporate changes at Corillian Corp. If Corillian has a new contact person for this facility, could you please send me his/her contact info?

Thank you, Stephanie
